

SPP OFFER RAISES APPROXIMATELY A\$0.6 MILLION

Metminco Limited (Metminco or the Company) (ASX: MNC; AIM: MNC) announces that the share purchase plan offer (**SPP Offer**) to shareholders with an address in Australia, United Kingdom or New Zealand (**Eligible Shareholders**), which closed 29 April 2016, raised approximately A\$0.6 million before costs by issue of 151,785,724 fully paid ordinary shares in the Company (**New Shares**) at an issue price of A\$0.004 (£0.0021) per Share.

As there is a shortfall in subscriptions from Eligible Shareholders, the Directors of Metminco reserve the right to place the shortfall New Shares on the same terms as the SPP to new investors and existing shareholders in accordance with the SPP Offer, subject to applicable regulatory and other requirements.

The SPP Offer was well supported by Directors and management who contributed approximately A\$156,500 by taking up 39,125,000 New Shares under the SPP Offer.

The Company has also received notices of exercise of 1,233,630 options expiring on 15 May 2016 raising a total of A\$6,618 (**Option Shares**).

Funds raised from the SPP Offer and exercise of options will be applied towards the completion of the acquisition of Minera Seafield SAS (**Minera Seafield**) from RMB Australia Holdings Limited, development of the Miraflores project and working capital. Minera Seafield owns 100% of the Quinchia Gold Project in Colombia with an estimated NI 43-101 mineral resource of 2.8 million ounces of gold, including the potential near term cash flow of Miraflores.

The Company will apply for quotation of the New Shares and the Option Shares to be traded on the ASX and AIM. It is expected that quotation will take place and trading will commence on the ASX on or around 9 May 2016, and on AIM on or around 11 May 2016.

Mr William Howe, Managing Director, commented: "Acquisition of Minera Seafield is on target to be completed by 31 May 2016. The Quinchia Gold Project represents an exciting opportunity for the Company to become a gold producer in the short term.

Negotiations are progressing in relation to equity funding for the completion of a feasibility study at the Company's Los Calatos copper-molybdenum project. As announced 21 September 2015, the Los Calatos Project has the potential to become a valuable mine producing approximately 50,000 tonnes of copper in concentrate per annum for some 22 years.

I would like to thank our shareholders for their continual support.
